

Water Quality In The Ozark Plateaus, Arkansas, Kansas, Missouri, And Oklahoma: 1992-95

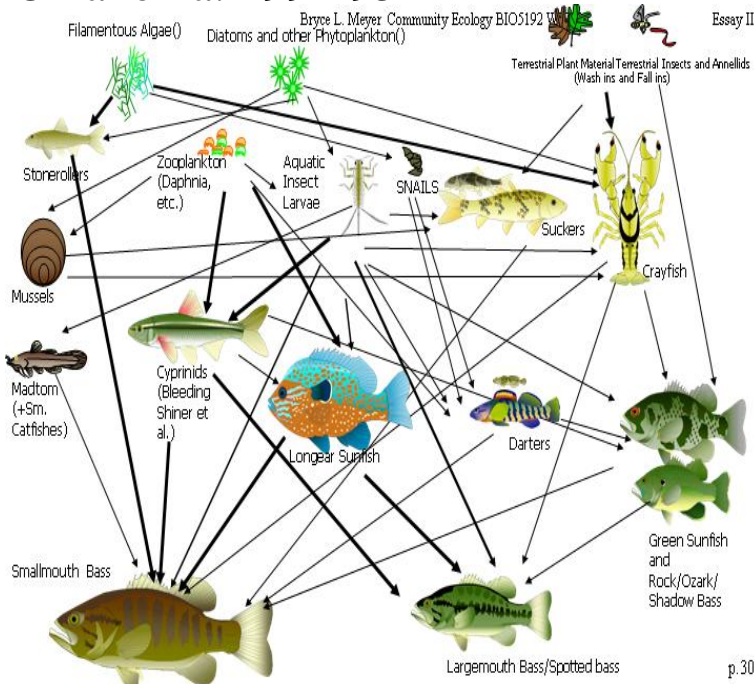

Figure #25: Simplified Food Web (Source Down) similar to Ozark Stream. Warming and warming again to cool water (increasing order). Smallmouth dominant top fish predator. Longear is dominant sunfish, Bleeding Shiner/Ozark Minnow dominate Cyprinids. Northern Hog suckers and Redhorse (Black and Golden) compete, with Northern Hog suckers in the shallow riffles more than Redhorse who are in the deeper riffles. Darters own under rock niches (more darters than mudminnows). Some Flathead Catfish act as super-predators in large pools. Terrestrial Birds (Opreys, Herons), Mammals (Humans, Otters, Raccoons, Minks), and Reptiles (Turtles)
